TO: Tajveer Transport

It's not often I find myself struggling to convey what a vendor / supplier does for IEM Canada and how that relationship is valued. When I think of Tajveer Transport the word that comes to mind is "SYNERGY". In practical matters Tajveer Transport supports IEM more like an in-house service than an outside service. I think of Tajveer as a part of IEM and value the partnership. You are now part of our brand.

Your support for us and our customers is excellent, deliveries are on time with no damages. Drivers are excellent and supportive, ensuring that loads are strapped, tarped & dry. When I call Tajveer Transport I can talk with a person whom wants to solve any requirements or issues. The pride people have working for Tajveer Transport is evident. It's why you are my preferred carrier.

Regards

KEVIN WEITMAN

Materials Manager
